

# Registering Your Membership on the Guild's Website

Follow these easy steps:

1. Click on the Home tab and select "ESG Login." On the Login screen that appears click "Lost Password" and fill your Username or Email address, then click on "Get New Password" to get an email with a password reset link. Open your email and then the password reset email. In that email, click on the reset link, which opens a window that displays a long, complicated password. Highlight the given password and type over it to create a password you can remember. Once you enter your new password, click on the "Reset Password" button and a Log In screen will open. Use it to login to the website.
2. The Guild will have no record of your new password, so be sure to save it securely for your future use.
3. Once you have logged in successfully, you may now access the Members Only menu items located under the Membership tab as a drop-down menu.

Thank you for joining the Eugene Symphony Guild. The Guild's mission of promoting the Eugene Symphony is only possible with volunteers working together through our fundraising events, educational programs, and volunteer services that support the Symphony.
